

Who we Are

Acclaim Resource Partners, LLC is a national, full service subrogation and consulting firm headquartered in Bloomington, Illinois. We have more than 100 years of combined experience in underwriting, claims, arbitration, systems and subrogation services.

Since our start in 2009, we have specialized in providing a variety of subrogation and arbitration services including:

- Subrogation Overflow
- Arbitration File Management
- Litigation Oversight
- Property Subrogation & Recognition Program
- Subrogation Consulting

Our Purpose is Your Potential

Purpose:

We enable our clients to realize an increase in their net revenue by enhancing and supporting their existing subrogation recovery activities and creating more efficient workflows in their subrogation departments.

Mission:

Provide more effective services and processes through our people, services, knowledge, and innovation – enabling our clients to maximize their profitability and future opportunities.

Vision:

Acclaim Resource Partners will exemplify how businesses in the insurance industry should provide services and customer support. Our people will listen to our customers' needs, share information for better decision-making, and support our communities in order to build strong relationships and instill trust within our Customers, Clients, and Community.

Simply Put

We are organized to become a seamless extension of our clients' existing recovery process.

Scope of Work

Subrogation Overflow

Acclaim Resource Partners works with clients to manage the outsourcing of subrogation files. We can help with file overflow and support your internal process flow, resulting in increased recoveries. We believe in leveraging calls and the applicable financial responsibility statutes to bring files to conclusion. We will not only bring your files to conclusion quickly, but with substantial recoveries.

Arbitration File Management

We help your incoming and outbound arbitration filings. We keep up with trending information regarding arbitration issues, results, and specific performance against other carriers.

Litigation Oversight

We utilize our established relationships with attorneys and can work with in-house client counsel. Acclaim Resource Partners will forward and monitor files needing litigation filed in order to recover the claim. This entails monitoring the progress of the case through the court system along with providing status throughout the life of the file. We also offer RUSH filing services.

Technology & Training

Proprietary software, SubroProTM, allows you full access and management oversight for all submitted files. Deposits go directly to your account. We train and fully support users of our proprietary SubroProSM software.
